 «Ôî òî í èèà Óêðàíí è – 2003»

**Kyiv**

Exhibition centre «Nauka» of National Academy of Sciences of Ukraine, pavilion 23 (National complex «Expocentre of Ukraine»)

1, prospect Glushkova, 03680, Kyiv, Ukraine

Exhibition is open: 26 June 12.00–17.00  
 27 June 10.00–17.00  
 28 June 10.00–14.00

**26-28 June**

Main topics:

- Optoelectronics, Optics, Laser and Infrared Engineering
- Holography and its Application
- Semiconductor Technology and Materials

At the same days there will be held the Seminar «Education and Career in Optics and Photonics» and the International Conferences «Singular Optics (Optical Vortices): Fundamentals and Applications SO'2003», «Optical Holography and Optical Security - 2003» and «Optical Storage - 2003»

More information about taking part in the Exhibition, Seminar and Conferences you can get via:
